Profile Summary

Detail-oriented and adaptable data professional with a background in statistics, data science, and software development. Experienced in working with data-driven systems, reporting tools, and collaborative technical projects through roles in credit analysis, research and planning, and software development. Proficient in Python, SQL, Power BI, and Git/GitHub, with a strong interest in building practical technology solutions and continuously improving technical skills.

Experience

Software Developer Apprentice

Zone01 Kisumu | April, 2026 – Present

- Developing software projects using modern programming tools and collaborative development practices in a peer-to-peer environment.
- Building practical experience in web development, problem solving, debugging, and version control using Git and GitHub.
- Working with technologies including JavaScript, Go, Python, HTML/CSS, Linux, and command-line tools to complete technical projects.
- Collaborating with other apprentices on coding tasks, project reviews, and troubleshooting sessions to improve software quality and teamwork skills.
- Applying software development fundamentals such as algorithms, clean code practices, and system logic in real projects.
- Continuously learning new technologies and improving technical skills through hands-on development and independent research.

Research, Planning & Compliance Intern

Privatization Authority | March, 2025 – March, 2026

- Supported the Research & Planning Department in collecting, cleaning, and organizing institutional data used in research, performance contracting, and strategic planning processes.
- Assisted in compiling and analyzing departmental performance data for quarterly and annual performance contract reporting in line with government guidelines and the GPICS system.
- Contributed to preparation of Annual Work Plans and supported alignment of departmental targets with the Commission's Strategic Plan and approved performance contract frameworks.
- Participated in monitoring and evaluation activities by tracking implementation of strategic objectives and consolidating progress reports from various departments.
- Assisted in research activities including literature review, data collection, and preparation of summaries to support policy analysis and institutional assessments.
- Supported compliance processes under ISO 9001:2015 by assisting in documentation control, records management, and internal quality assurance procedures.
- Helped prepare presentation materials, reports, and briefing notes for internal meetings, performance reviews, and stakeholder engagements.
- Contributed to updating and maintaining structured datasets used for reporting, planning, and decision-support within the Directorate.
- Worked with teams across Research, Compliance, and Planning functions in a structured, deadline-driven public sector environment.

Credit Analyst Intern

Metropol Corporation Limited | January, 2024 – February, 2025

- Assisted in credit risk assessment and evaluation of customer financial profiles using internal credit reporting systems.
- Analyzed financial and credit data to support decision-making on customer creditworthiness and repayment capacity.
- Prepared periodic reports and dashboards using Excel and Power BI to monitor portfolio performance and debt recovery trends.
- Used SQL to extract, clean, and organize customer and financial data for reporting and analysis purposes.
- Supported debt collection processes through follow-up on outstanding accounts and updating repayment records.
- Collaborated with senior analysts to verify customer information and maintain accurate credit records.
- Responded to customer inquiries related to CRB reports and account status while maintaining professionalism and confidentiality.
- Contributed to data quality checks and ensured accuracy in financial reporting processes.
